

ScanDEX/OCR

Automatically Index Your Documents

- Perform OCR to Extract Title Block Data
- Full-Page OCR for Small-Format Documents

ScanDEX/OCR

ScanDEX/OCR is an add-on to *ScanDEX/Pro*. With the OCR package and with the index fields linked to areas in the image, you can extract the text into the fields either manually, or automatically. The OCR package enables you to fully automate the scanning, indexing, and storing of your drawings. *ScanDEX/OCR* also supports full-page OCR of small-format documents (A-B or A4/A3), with automatic conversion to TXT, RTF, Microsoft Word, and WordPerfect 7.x formats.

ScanDEX/CD

Distribute Your Documents on CD-ROM

- Built In Viewer
- Simple Search, View, and Print Tools

ScanDEX/CD

ScanDEX/CD is an add-on to *ScanDEX/QC*. With *ScanDEX/CD*, you can export the archive or any part of it to a CD-ROM with a built-in viewer and search engine. You can design your own forms and graphics to meet your customers' specific requirements. *ScanDEX/CD* looks and feels just like *ScanDEX/QC*, but runs completely off of a CD-ROM. Sending your documents out has never been easier. Whether you use it for off-site storage, document distribution or as a document delivery system in scan-for-pay shops, *ScanDEX/CD* makes it quick and easy. *ScanDEX/CD* is a one-year site license, which allows you to create up to 1000 CD-ROM's. Additional years can be purchased for a discounted price.

ScanDEX/PLUS Viewer

View Over 150 Different File Formats
Automatically Index AutoCAD Drawings

- View AutoCAD, Microstation, and Office Files
- Auto-Index AutoCAD Drawings

ScanDEX PLUS Viewer

ScanDEX/PLUS Viewer is an add-in to *ScanDEX/Pro* and *ScanDEX/QC*. The *PLUS Viewer* provides viewing and printing support for over 150 different popular file formats, including AutoCAD, MicroStation, Microsoft Office, WordPerfect, Zip, and many others. When used with *ScanDEX/Pro*, the *PLUS Viewer* allows you to automatically Index AutoCAD drawings by recognizing Block and Attribute Names, and extracting the Value from the field. When used with *ScanDEX/QC*, you have the perfect enterprise-wide document archival system, with the ability to index, view, and print almost any document type.
